Intended for use with any A&P textbook, this best-selling laboratory manual features a wide variety of exercises and activities designed to meet the needs of any 2-semester anatomy & physiology laboratory course. Known for its thorough, clearly-written exercises, full-color art, and tear-out review sheets, this lab manual gives you a hands-on laboratory experience. This lab manual is available in four versions: Cat, Main, Pig, and Rat. This package contains: Human Anatomy & Physiology Laboratory Manual, Rat Version

Elaine Marieb's clearly written and comprehensive lab manual has been thoroughly revised with new and updated content. Guiding readers through well-planned lab activities, this new edition features new illustrations and full-color photographs that help readers visualize and master lab concepts. Incorporating the best new technology available for A&P labs, PowerLab(r) procedures have been added to selected exercises so students can practice with computerized data compilation techniques. Plus, two new laboratory simulations have been added to the popular PhysioEx(tm) V3.0 program now available on CD-ROM or via the Web. Designed to stand-alone or use with other materials, each manual contains anatomical and physiological terminology essential for use in one- or two-semester A&P courses. For college instructors and students.

This is a lab manual for a college-level human anatomy course. Mastery of anatomy requires a fair amount of memorization and recall skills. The activities in this manual encourage students to engage with new vocabulary in many ways, including grouping key terms, matching terms to structures, recalling definitions, and written exercises. Most of the activities in this manual utilize anatomical models, and several dissections of animal tissues and histological examinations are also included. Each unit includes both pre- and post-lab questions and six lab exercises designed for a classroom where students move from station to station. The vocabulary terms used in each unit are listed at the end of the manual and serve as a checklist for practicals.

For the two-semester A&P laboratory course. Fully engage students in their A&P Lab experience Human Anatomy & Physiology Laboratory Manual: Making Connections distinguishes itself from other A&P lab manuals by focusing on and addressing the most common teaching challenges in the lab--getting students to engage in the lab, to prepare for the lab, and to apply concepts in the lab. Catharine Whiting's active learning approach incorporates a rich variety of hands-on activities and guided questions to get students engaged and asking questions. The 2nd Edition provides new features, such as "What You Need to Know Before You Start this Unit" at the beginning of each Unit and new Pre-Lab Video Coaching Activities to help students learn what they need to review before lab. Developed as the companion to Erin Amerman's Human Anatomy & Physiology, 2nd Edition, Whiting's lab manual reflects the same superb art program and terminology found in the Amerman textbook. Human Anatomy & Physiology Laboratory Manual: Making Connections, 2nd Edition is available in three versions for your students: Main, Cat and Fetal Pig. The Cat and Fetal Pig versions are identical to the Main version except that they include seven additional cat dissection and nine additional fetal pig dissection exercises, respectively, at the back of the lab manual. Also available with Mastering A&P Mastering(tm) is the teaching and learning platform that empowers you to reach every student. By combining trusted author content with digital tools developed to engage students and emulate the office-hour experience, Mastering personalizes learning and improves results for each student. Mastering A&P assignments support interactive features in the lab manual and include new Pre-Lab Video coaching activities, new Cat Dissection Video and Fetal Pig Dissection Video coaching activities, new fully mobile PAL 3.1 plus PAL 3.1 Customizable Flashcards, Learning Catalytics (tm) , A&P Flix 3D muscle animations, a variety of Art Labeling Questions, Clinical Application Questions, and more. Featuring extensive new instructor support materials for easier quizzing in the lab, this best-selling laboratory manual provides a wide variety of exercises and activities designed to meet the needs of any 2-semester anatomy & physiology laboratory course. Known for its thorough, clearly-written exercises, full-color art, and integrated tear-out review sheets, this lab manual gives students a complete hands-on laboratory and learning experience inside and outside of the lab. The new edition has been fully revised with even more accessible language and more than 50

new and improved cadaver and histology photos. It also features engaging new Group Challenge activities that encourage a more active learning experience in the lab. Intended for use with any A&P textbook, the lab manual is available in customized editions as well as in three conventional versions: Main (Tenth Edition), Cat (Eleventh Edition), and Fetal Pig (Eleventh Edition). For one-semester courses in A&P Lab. A Brief, Student-Friendly Lab Manual for One-Semester A&P--Now in Full Color Developed especially for a fast-paced, one-semester A&P course, Elaine Marieb and Pamela Jackson's Essentials of Human Anatomy and Physiology Laboratory Manual, 7th Edition provides 27 full-color, hands-on laboratory exercises, along with a built-in Histology Atlas. The Lab Manual can accompany any one-semester A&P text, but it is most effectively paired with Marieb and Keller's Essentials of Human Anatomy & Physiology, 12th Edition. Each lab exercise consists of a variety of easy-to-follow activities, all supported by a checklist of materials, a Pre-Lab Quiz, background information, learning objectives, and tear-out review sheets. The black and white figures in previous editions are now in full-color, and the 7th Edition further expands on its student-friendly writing style with updated terminology and review questions, streamlined content presented in tables, and a new, more intuitive design.

Human Anatomy & Physiology Laboratory Manual

A streamlined, workbook-style approach to the A&P lab This full-color laboratory manual is designed for instructors who teach a two-semester anatomy & physiology lab course, but do not require the full

range of laboratory exercises found in Marieb's best-selling Human Anatomy & Physiology Lab Manuals (Cat, Fetal Pig, and Main). This lab manual is written to complement Marieb's Anatomy & Physiology, Sixth Edition, but can be used with any two-semester text. Instructors will find 27 concise, activity-based lab exercises that explore fundamental concepts in anatomy & physiology and build students' observational and laboratory skills. Each lab is presented with learning objectives, cogent summaries of key concepts, and meaningful activities. For instructors who want their students to experience how to use a microscope, a complete exercise on its use and care can be found in Appendix A. The fully revised Sixth Edition provides a more active, workbook-style approach that incorporates more visual summary tables, streamlines information, and engages students with hands-on drawing and review activities. Each lab includes a list of materials needed for conducting the lab, a complete list of learning objectives at the beginning of each exercise to help students track their progress, and up-to-date terminology in accordance with Terminologia Anatomica and Terminologia Histologica. The lab manual also features a full-color, extensive Histology Atlas, integrated Review Sheets with new full-color art, and new art and photos that help bring A&P to life.
